

Wilmington Covenant of Hope

We the undersigned, as members and leaders of various faith communities, seek to demonstrate solidarity and unity and to repair the breach within our faith community and wider community created by our:

- Division and individualism
- Proprietary agendas
- Pride and arrogance

Therefore, we now covenant to:

- Restored relationships
- Submission to a higher purpose
- And the redirection of power, money, and control

To the end that *shalom* is made real in ourselves, families, communities, and the world by the:

- Pursuit of shared positive values
- Study, fellowship, prayer, and spiritual practice
- Increased dialogue with one another

To aid in the spiritual, political, intellectual, and economic empowerment of the broader community.
